SUMMARY OF PRODUCT

The Ten Year/One-Year Interest Only Adjustable Rate Mortgage (ARM) is a loan where the interest rate remains fixed for ten years. During that ten year period, you will make monthly payments of interest only on the principal balance. You will not reduce your principal balance during the first ten years of the loan. After the first ten years, your interest rate will adjust every year, and you will make monthly payments of principal and interest in an amount sufficient to completely repay the unpaid principal balance, at the current interest rate, by the end of the thirty (30) year term.

INITIAL INTEREST RATE

Your Initial Interest Rate for the first ten years of the loan is established prior to closing at the time of rate lock. Your Initial Interest Rate is not based on the Index used to make later adjustments. Your Initial Interest Rate may reflect a discount or premium. Please ask us about our current Initial Interest Rate and our current interest rate discount or premium.

INITIAL PAYMENTS OF INTEREST ONLY

Your first 120 monthly payments will consist of interest on the unpaid principal balance (plus additional payments required for tax and insurance payments as appropriate). You will not reduce the principal balance during the first ten years of the loan.

HOW YOUR INTEREST RATE CAN CHANGE

Your Initial Interest Rate will remain in effect for ten years. Thereafter, your interest rate may change on the date specified in your Note and every year thereafter. Each date on which the interest rate could change is called a "Change Date".

LIBOR INDEX

Adjustments to the interest rate will be based on an Index plus our margin. The Index is the average of interbank offered rates for one-year U.S. dollar-denominated deposits in the London market (LIBOR) as published in *The Wall Street Journal*. To compute adjustments to the interest rate, Noteholder will use the most recent Index figure available as of 45 days prior to the Change Date. This Index is called the "Current Index."

If the Index is no longer available, the Note Holder will choose a new index that is based upon comparable information.

CALCULATION OF INTEREST RATE CHANGES

Prior to each Change Date, Noteholder will calculate the new interest rate by adding the margin to the Current Index and rounding the result of this addition to the nearest one-eighth of one percent (0.125%). Subject to the limits stated below, this rounded amount will be the new interest rate until the next Change Date.

Ask us about the Current Index and the margins.

INTEREST RATE CHANGE LIMITS (CAPS AND FLOORS)

After ten years, the interest rate can increase five percentage points (5.00%) above the Initial Interest Rate or decrease five percentage points (5.00%) below the Initial Interest Rate.

Thereafter, the interest rate established as of any given Change Date cannot be increased or decreased more than two percentage points (2.00%) from the interest rate in effect immediately preceding such Change Date. The interest rate on your loan cannot increase or decrease in the aggregate over the full 30 year term of your loan by more than five percentage points (5.00%) above or below the Initial Interest Rate set forth in your Note. The interest rate will never go below the margin set forth in your Note. This is known as the floor.

HOW YOUR MONTHLY PAYMENT CAN CHANGE

Your monthly payment can change on the 121st month and every year thereafter. Beginning with your 121st monthly payment, you will be required to make monthly payments of both principal and interest in an amount sufficient to fully amortize the unpaid principal, at the new interest rate, over the remaining term of the loan. Thereafter, your monthly payment will change every year based on the interest rate and the unpaid balance at that time.

Changes in the monthly payment will occur one month following the interest rate change. Your monthly payment could increase or decrease substantially depending on changes to the interest rate.

EXAMPLE: On a \$10,000, 30 year loan taken out in January 2004, with an Initial Interest Rate of 5.750%, the interest rate could increase to the maximum interest rate of 10.750% after ten (10) years. The payments on the loan could increase from a monthly payment (of interest only) in the amount of \$47.92 to a maximum payment (of principal and interest) of \$101.52 in the eleventh (11th) year.

To see what your payments might be for a mortgage of a larger amount, divide your mortgage amount by \$10,000; then multiply the monthly payment by that amount. For example, the monthly interest only payment on a \$175,000 30 year mortgage at an initial rate of 5.750% would be \$175,000 divided by \$10,000 = 17.5; $17.5 \times \$47.92 = \838.60 per month. The maximum payment for this loan would be \$175,000 divided by \$10,000 = 17.50; $17.50 \times \$101.52 = \$1,776.60$ per month in the eleventh (11th) year.

NOTICE OF CHANGES

You will be sent a notice that your interest rate and monthly payment will be adjusted at least 25 calendar days but no more than 120 calendar days before each Change Date. The notice will contain the following information: (a) your new interest rate; (b) your new payment amount; (c) loan balance; (d) the date the new interest rate and new payment amount will become effective; (e) the title and telephone number of a person who will answer any questions you may have regarding the notice and; (f) any other information required by law to be given.

This summary is for informational purposes only. It is not a loan commitment. Specific information regarding your loan will be contained in the loan documents.

I certify that I have received this information along with the Consumer Handbook on Adjustable Rate Mortgages.
